The biggest selection of play options

Brandon is our biggest play environment in the Basic series. The model has four towers: three with a floor height of 140 cm and one of 190 cm. On top of that, you will find multiple play zones, both a slide and sliding poles as well as a bunch of climbing activities. Do you want a similar play system with three towers instead? Then have a look at our **LB350 Boris** play environment.

Brandon's many towers are connected by two climbing nets and a monkey bar. Additionally you get three climbing walls, stepping stones, several levels and a play panel for the youngest children. All of these activities help to support the children's natural development, both their gross motor skills when they climb and their fine motor skills when they immerse themselves at a play panel.

The play environment Brandon's design is focused on the children's play value. We have thought out solutions that guarantee a space for all children of all ages. For example, multiple age groups of children can play without disturbing each other, as there are several play zones. Likewise the activities are also distributed according to the age groups. This means that the play zones for the younger children are at ground level, while the challenging ascents to the high towers ensure that they are only accessible for the older children. In this way, we achieve an optimised environment, where the children can feel at ease and safe.

Our guarantee for a fun playground

One of our many ways to create a playground that both supports children's natural development and has a high entertainment value is to bring in the experts themselves: the children. Children have a far-reaching imagination and a creativeness that knows no bounds when faced with thinking outside the box. This helps us to push our

Specifications

Order number
LB450G: In-ground mounting

Product dimensions (LxWxH)
700 x 535 x 272 cm

Area requirement incl. safety distances (LxW)
1032 x 821 cm

Maximum fall height
264 cm

Age recommendation
From 4 years

Approximate installation time
2 persons 20 hours

Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

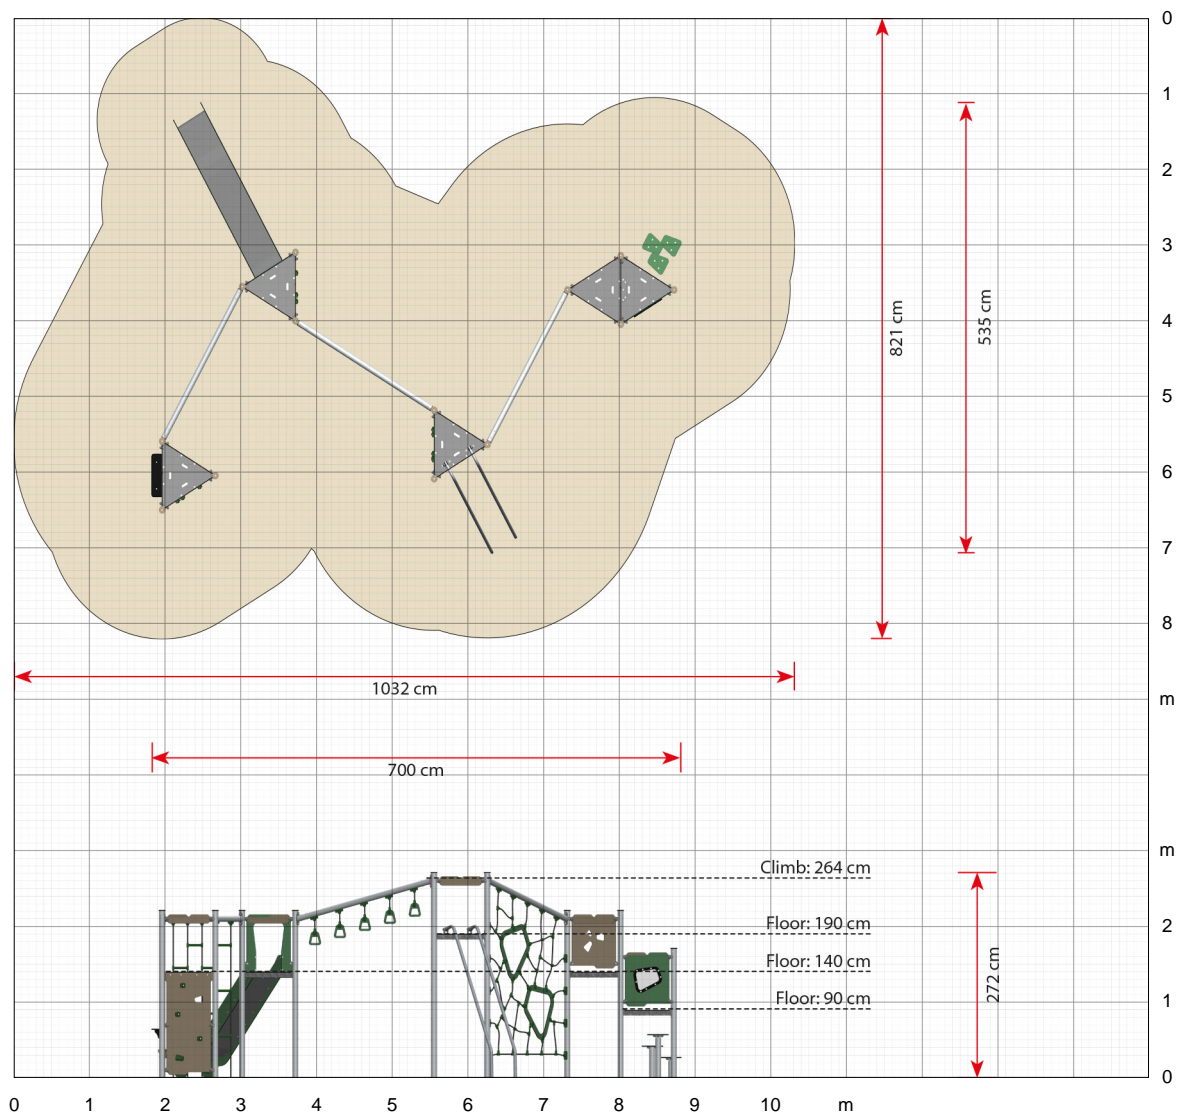

EN1176 certified by TÜV

LB450

Brandon

Scale 1:100 (when printed in 100%)
