## A fun and challenging play system

Saldor is one of the largest play systems in the **LEDON Explore** series. With rope tunnels, jungle bridges, climbing wall panels, tube slides and much more, the system offers a wealth of activities and hours of captivating play. The Saldor play system is special because you can move all the way around it without touching the ground. This makes Saldor ideal for playing games such as 'tag' and 'the floor is lava'.

## Exhilarating tube slide

For many years, LEDON's **tube slides** have been a huge favourite, and the Saldor slide is no exception. Tunnel slides can be designed in many ways. The window ensures that light is able to enter the tunnel. And Saldor's floor height of 190 cm guarantees exhilarating slides. The slide doesn't just give children butterflies – it also helps to stimulate their development. When children go down a slide, it trains their gross motor skills and balance, and at the same time it helps them about gravity, distance and speed.

## LEDON Explore is your guarantee of a high-quality playgrounds
