Multiple levels and fun sliding poles

Bertil is one of the multi-level play towers of the series. This model has two levels of 90 cm and 140 cm, respectively. The Bertil play tower challenges the children's gross motor skills and balance, both when they access the levels via the stepping stones and when taking a trip down the sliding poles. Do you want a similar model with stairs and a slide, which is more appropriate for younger children? Then have a look at our **LB135 Baldur** play system.

The stepping stones on the Bertil play tower give the children a different ascent, which in particular challenges their balance. The balance is important to stimulate, because while exercising the balance, you also train the cerebellum, which is used when we go up the stairs or lift things. Additionally the stepping stones make it easy to combine the play system with the other balancing equipment of the Basic series.

The first level of the tower is equipped with a window that inspires the children to creative and fun games as well as social interaction. At the top of the tower, a trip down the sliding poles can be enjoyed at full speed, and are you one of the really cool children that wants to test their arm and leg strength, then the sliding poles can also be used as a way to access the floor of the tower.

A light and minimalist design

In the Basic series, we focused on achieving a timeless design which could fit into urban spaces, homeowners and housing associations as well as day-care centres. All the playground equipment offers a feeling of lightness and transparency, which does not dominate the outdoor environment. Additionally the neutral colours and the simple structure also give room for the children's own imagination to flourish, and they can to a large extent create their own world.

Specifications

Order number
LB130G: In-ground mounting

Product dimensions (LxWxH)
281 x 131 x 222 cm

Area requirement incl. safety distances (LxW)
598 x 430 cm

Maximum fall height
155 cm

Age recommendation
From 4 years

Approximate installation time
2 persons 6 hours

Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

Made with sustainable materials

EN1176 certified by TÜV

Phone: +45 7482 6565
